

ENVIRONMENTAL POLICY STATEMENT

Oak Dry Lining Limited is committed to a policy of effectively managing environmental performance in order to minimise the impact of our business processes on the natural environment and the community at large. This commitment extends to all workplaces, employees and others affected by our operations. Our objective is to integrate the assessment, management and control of environmental issues into the management of our business.

We will:

- Assess the environmental impact of our operations during planning, design and implementation phases so as to prevent pollution of the external environment.
- Ensure compliance with all relevant environmental legislation as a minimum and, where practical, approved codes of practice and other requirements such as those specified by our clients.
- Develop and implement objectives and targets to ensure a continual improvement in our environmental performance.
- Incorporate sustainable environmental and resource efficiency considerations into our design standards and construction practices having particular regard to energy and water consumption, use of low environmental impact materials, designing out waste and reusing materials, wherever possible.
- Take reasonable and appropriate measures to ensure that our supply chain provides us with FSC / PEFC certified timber / timber products.
- Play our part in minimising the amount of construction, demolition and excavation waste going to landfill. We will work to adopt and implement standards for good practice in reducing waste, recycling more, and increasing the use of recycled and recovered materials.
- Adopt a risk based approach to providing appropriate training in environmental issues for our employees according to their role, work they undertake and their environmental responsibilities.

The Board has the overall responsibility for environmental management. The Board will discharge this responsibility with the assistance of management, employees and contractors. The Board accept their responsibility for environmental management and will ensure that resources, facilities, finances, information, instruction, training and supervision are provided, as necessary, to maintain a positive environmental culture and performance.

All employees and contractors are expected to co-operate with Oak Dry Lining Limited in the implementation of the Environmental Policy document and will ensure that their own work, so far as is reasonably practicable, is carried out with minimum risk to the environment.

A handwritten signature in blue ink, appearing to read "CVldar", with a small dash at the end.
